D. Common Question

1. If healing is God's will for every Christian, then why do most Christians get sick just like non-Christians?

Healing is received the same as all the promises of God. We all know that Jesus died for everyone so they can go to heaven, but only those who believe on Him receive the benefits of salvation. The same is true for healing: Jesus' death on the cross provided a salvation package that included healing which must be believed. All the promises and benefits of God have conditions that require some action by us. There are three components that a person has to participate in to receive any of the promises: hear, believe and speak (Rom 10:8-14). "Hearing" involves the obtaining of knowledge of God's Word on the promise. "Believing", or having faith that what God has said is true, is the next step. Then, "speaking" refers to the action that is required by faith. Salvation is confessing with your mouth the Lord Jesus; for healing, it is confessing that you have been healed by the stripes of Jesus (I Peter 2:24) and acting like it. Most Christians do not know nor understand the benefits of divine healing provided for them and therefore in that area of their life, they are subject to the natural elements of sickness and disease.

Hosea 4:6 says, "My people are destroyed for lack of knowledge." It is what we do NOT know about God's Word that can keep us from experiencing all God has for us and allow the enemy to destroy us. This lack of knowledge of God's Word on healing has forced the church to seek health from the world's system. Grow in your understanding of God's Word, and you can begin to shift your faith from science and medicine to the living, healing God.
